Dear Waste Generator:

In compliance with Minn. Statute 115A.9302, we must disclose to you in writing at least once a year, the facilities which we use for your waste disposal. The sites are listed in the order of frequency used. You may be responsible for any liability that results from contamination at a facility where your waste has been deposited. Minnesota believes that its waste management system provides substantially more financial and environmental protection than depositing waste in landfills in other states. Managing your waste in Minnesota may minimize your potential liability.
